Itinerary *All times listed are for the **Mountain Standard Time Zone***

You are on your own for your dinner this night and breakfast the next morning. There are several places to eat that are within walking distance and the Stagecoach provides a continental breakfast in the morning.
- **Day Two-Day Six:** A van will pick you up in front of the motel at 8:00 a.m. and transport you to Corn Creek where you will launch on your river trip. This shuttle takes approximately 3 hours. Along the way you will make 1 stop at North Fork where you can purchase fishing licenses. Each day you will run exciting rapids, explore unique side canyons, and enjoy the majestic grandeur of the Frank Church Wilderness Area. You will travel about 90 river miles along the Main Salmon River. Each night you will camp under the stars along the beaches of the river.
- **Day Seven:** The river portion of your trip will end at Carey Creek Boat Ramp. From this point you will enjoy a scenic bus ride back to Boise, Idaho. This drive is takes approximately 5 hours. You will make occasional stops along the way to Boise. You should arrive in Boise between 5:00 p.m. and 6:00 p.m. The bus will drop you off at the Boise Airport. Please do not schedule any flight arrangements out of Boise before 6:00 p.m. this day!

Typical Day

A typical day on the river will include rafting for a few hours at a time, stopping for scenic side-canyon hikes, bathroom breaks, a stop for lunch, and lots of fun, laughter, learning, and excitement in between.

After a full day enjoying the river you will arrive in camp. Guests will be given time to find their favorite campsite and then return to the rafts to create a "fire line" which is how we load and unload the rafts. Your help in passing the gear on and off the boat is greatly appreciated and can help you to really feel a part of the whole river experience but if you have physical restrictions or limitations that keep you from participating in this you are not required to.

The first evening in camp your guide will give a demonstration of how to easily assemble your tents and will be available if you need any additional help in setting those up. Tour West provides tents, a paco pad (a thick sleeping pad), sleeping bags, sheets, camp chairs, and water-proof gear bags for all of our guest.

While you relax and take in the beautiful surroundings, your guides will prepare dinner. Every night is different but the menu may include fajitas, BBQ chicken with rice and veggies, lasagna, steak and sautéed mushrooms & onions, and other fresh and scrumptious meals.

At night you will enjoy chatting with the guides and guest until the fresh air and rhythm of the river lull you to sleep. Each morning your guides will prepare a hearty breakfast. You will have a chance to enjoy eating before returning to your campsite to take down your cot and pack up your belongings into a dry bag. After bringing your bag down to the boats, guest participate in the fire line once again and then you are off on another adventure filled day.

Age & Physical Recommendations

We are often asked what the age or physical recommendations are of those who want to take our trips. The recommended minimum age for the trip is 8 years old. We do not have a maximum (we have taken people in their 90's!). We have taken people of all different ages and physical conditions and they have a wonderful time. There are a few things that can make the trip more enjoyable for you if you are able to do.

- Being able to firmly grip ropes or handhold provided while running the rapids
- Enough agility to climb on and off the rafts. If you are unable to do this on your own please ask for assistance from a guide.
- Fit into our Class V lifejacket (max 58” chest) required by the Forest Service.
- Ability to navigate some uneven terrain on hikes and in camp.

Our primary goals are for you and your fellow guest to have a safe, enjoyable, and fulfilling experience. If you are concerned about any of these recommendations please call our friendly staff and we will be happy to discuss your specific circumstances. If you have any questions about river rafting and the inherent risks please contact our office.

Weather

We always hope for good weather and usually we get it but you should be prepared for cooler weather and storms. The following chart shows averages for the month of June through September.

| <u>Temperature & Precipitation</u> | <u>JUN</u> | <u>JUL</u> | <u>AUG</u> | <u>Sept</u> |
|--|------------|------------|------------|-------------|
| Mean Max Temperature | 80 | 93 | 90 | 82 |
| Mean Min. Temperature | 50 | 65 | 60 | 57 |

The following page is a checklist for personal gear that you should consider bringing on your raft trip. Though we have tried to be as specific as possible, you should give some consideration to your own personal needs. Are you the first one to get cold or the last? Are you light skinned and need more sun protection or do you go all summer in shorts or swimsuit? Do you need to change clothes often or are you comfortable in the same swimsuit or shorts for a couple of days? What type of shoes would work best for you, given the conditions on the trip?

The Salmon River can go from warm to cold rather quickly so please don't go on your trip without a jacket or fleece sweatshirt, rain gear and a long pair of pants. During the runoff (typically June) the water is colder and may require you to bring a wetsuit if you are interested in paddling an inflatable kayak.

If you are staying in Boise before or after your trip we recommend you store additional luggage at your hotel.

CAMERAS: We encourage you to bring your cameras with you on your trip of a lifetime! Please keep in mind there is a lot of water and sand and you will need to properly protect your camera. If you bring a phone as your camera we recommend a waterproof case similar to these at Seawag. www.seawagusa.com. If you bring a DSLR we recommend you bring them in a pelican case with a few carabiners to secure it to the raft. Frequently Asked Questions

1. Who will our guides be?

Tour West feels that we have the best guides in the business. Our guides are all whitewater qualified with an average of fifteen years and hundreds of miles of river experience. Each guide is an accomplished outdoors person with wilderness first responder training, a background in natural history and the ability to make each river trip special and memorable.

2. Where and when will I get my river and camping equipment?

Your waterproof duffle bag, sleeping bag, sheet, small water-resistant bag and cup will be available when you meet your guide in Salmon. Your tent and sleeping pad will be available at the first night's camp.

3. What items will I have access to during the day?

Every morning your waterproof duffle bag containing your sleeping gear and clothing will be loaded on the boat and packed away for the day. Your small water-resistant bag is used to store any of the items that you will need to get to during the day, such as sun screen, hat, camera, water bottle, etc.

4. What is the menu like?

We take pride in offering well-rounded meals that are very appetizing with sufficient quantities for everyone.

Breakfast items include many traditional favorites from pancakes to omelets, fresh fruits and juices. Lunches are a favorite for many with a variety of deli meats and cheeses, salads, chips and cookies. At the end of each day you are ready for a hardy meal expertly prepared under a western sky. You'll have fresh salads, chicken, steak, side dishes, and of course, desserts. All meals include water and lemonade to drink.

NOTE: If you have a special diet or allergies, please inform us of your specific needs so that we can determine how to best accommodate you.

5. Where will I bathe?

Soap is strictly prohibited on the Main Salmon River. All soaps must be disposed of above the high-water line. We recommend you bring a solar shower which will make it easier for showering at camp. Please bring one per family.

6. What about bugs and snakes?

The Salmon River is a very friendly place to camp. Mosquitoes and flying insects are not generally a problem. Snakes and scorpions are seldom seen. There are yellow jackets in the area so if you are allergic to this type of sting we strongly encourage you to bring an epi-pen shot with you. Most trips will have the thrill of seeing desert big horn sheep and many varieties of birds.

7. Can we expect rain?

We never know for sure when it will rain, so even if you are taking a mid-summer trip be sure to bring a two-piece rain suit! Ponchos are not recommended.

8. What are the toilet facilities like on a river trip?

During the day, all urine must go directly into the river. Which means squatting/standing near the river's edge or wading in. There will be pit stops during the day, but if you have to go tell the guide so they can find a good place to pull over. If you need to poop during the day, the guides have a portable toilet system. Each evening we set up a camp toilet for solid waste, while urine continues to go into the river. At the hand wash station we have a "key" so you aren't disturbed while using the toilet. The guides will explain the details of the sanitation and bathroom procedures in greater detail during on-river orientation.

For women who may be on their period while on your river trip, it's helpful to plan ahead and pack for the unexpected. If you will be using tampons, bring a 'Go With Your Flow Pack' or several Ziploc bags and plenty of baby wipes. Make sure you keep these supplies handy during the day, in your provided day dry bag. When you change during the day, you can wrap the trash in a baby wipe, put that in a Ziploc and dispose of it in the boat trash system. As you will get wet a lot on your river trip, using pads is not recommended.
